

Reopening Schools Using a Modular Solution: *Guidance for the COVID-19 Classroom*

How Aries Solves the Social Distancing Challenge

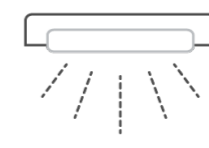

✶ Aries is a GSA-approved modular building vendor with purchasing contracts: BuyBoard, TIPS, Region 5, HGAC Buy, CP Choice Partners, ASC, and KCDA.

✶ Social distancing requires more space. Limiting classroom capacity is a temporary solution that will eventually need to be addressed by assuring safety while supporting healthy learning. Depending on your space, Aries can build vertically with the same top quality, meeting all building standards as traditionally constructed buildings.

✶ With customers across North America, Aries is experienced in building regulations and codes. In special instances, such as the COVID-19 response, school districts may be granted exemptions and variances in existing land development agreements such as Impervious Cover Rules.

SPEED. KNOWLEDGE. EXPERIENCE. As school districts consider new solutions to increase space between students, Aries already has one. In many cases, Aries modular buildings can be delivered immediately, and comply with local, state, and federal procurement laws and regulations. Since 2012, Aries has provided full turnkey service from financing, site engineering and design, to delivery and setup, with exceptional customer service every step of the way.

Available Customizations to Manage COVID-19

- Automated Temperature-Taking Devices
- Commercial UV Light Sanitizers
- Commercial HEPA Air Purifiers
- Wall-Mounted Hand Sanitizers
- Touchless Automatic Door Opener
- Wall-Mounted LED Screens For Virtual Learning

Refer to Code **CV-EDU** to be transferred to the appropriate representative.
